About me

Graduated from the Upper School of Arts and Design, Politécnico de Leiria in 2024. I have been pursuing my passion for design since 2017, striving to evolve every day and believing that with effort and dedication we can achieve all our goals.

Currently, my main professional focuses are Motion Design, Graphic Design, Animation, and Multimedia Design, but I'm always looking for opportunities to expand my creative boundaries.

Experience

- **TedXGeneva Breathing Edition** 2023

I was provided with a volunteer collaboration opportunity with TedXGeneva and UNITAR to develop a visual identity for the "Breathing" event. My participation in the event was entirely monitored by the organizer Thanasis Priftis and his team responsible for the event. It is worth remembering that my collaboration on the project did not reach the final product, due to professional commitments on my part.
- **Impec Nettoyage SA & PretotNet SA** 2022-2023

After a positive experience working outside my country in 2021, I was given two more job opportunities in the cleaning industry. Where I was able to combine my studies at ESAD.CR with work at the companies PretotNet SA and Impec Nettoyage SA, during the summers of 2022 and 2023, respectively.

Both experiences were extremely positive and rewarding on my part and on the part of both companies and colleagues.
- **CTA Services SA** 2021

During approximately 2 months I worked at a cleaning company located in Gland, Switzerland.
For the first contact with the cleaning industry, it was extremely positive, which made it possible to gain a wide range of knowledge in the area in question. It is also worth mentioning that it was my first time working outside Portugal.
